

Lamp Of(f)

Psychedelic soundscapes, groovy riffs and nocturnal moods are some of the spices in the tasty sonic stew this trio has to offer. Immersing in this dish, cooked for you with love, light is forgotten, space and sound are praised. A childish love for freedom, an ability to see beauty in wierdnees and vice versa, a desire for relaxation – this is what brings them together, and what they want to bring to the world. As they are the last to leave the party, they'll turn the lamp off for you...you just have to let go...

Lamp Of(f) is a collaborative musical experience by Stanimir Lambov (guitar/fx), Gabriele Bertossi (bass) and Ruggero Di Luisi (drums and percussion). The trio focuses on both composed and improvised music, and aims playing in a way that creates an immersive experience. Although inspired by jazz, the musicians are cultivating their sound by happily embracing wherever the music brings them. Through their love for playing live and the incredible empathy and acceptance they show to each other, the musicians create a live show worth experiencing.

The band was created in the summer of 2021 when guitarist Stanimir invited Gabriele and Ruggero to play some of his compositions together. They all felt a connection and decided to explore further what this alliance brings.

Inspired by the need for new harmonic approaches on the guitar, as well as his interest in classical music, Lambov is exploring the application of counterpoint to improvisation on the guitar. The trio format provides just the perfect amount of sonic space for these concepts. Through them and through working with guitar effects, the guitarist is on a quest to share his sonic universe with the world.

Although Stanimir is the one who initiated the band, in it, there are no leaders or followers. The musicians are curious to find ways of playing and improvising together as a unit, using the space provided to them and especially playing together with the ambiance of the room as well as the silence.
